- 7:50** **Wrap up**
- 8:00** **Adjourn**

Envision Cambridge is a public process to develop a plan for a livable, sustainable, and equitable city. With input from those who live, work, study, and play in our city, Envision Cambridge will create a shared vision for the future of Cambridge. The plan will result in recommendations on a broad range of topics such as housing, mobility, economic opportunity, urban form, and climate and the environment.

**ENVISION
CAMBRIDGE**

City of Cambridge

Speaker Biographies

Tim Love, Utile

The founding principal of Utile, Tim is highly regarded for his strategic and collaborative approach to complicated urban projects – including helping to bring together diverse public agencies and stakeholders around a single shared vision.

Tim is also a tenured Associate Professor at the Northeastern University School of Architecture where he teaches housing, urban design and architectural theory.

Nathalie Beauvais, Kleinfelder

Nathalie Beauvais is a senior member of Kleinfelder's sustainability practice where she currently manages the team of scientists, academics and sustainability experts conducting the

City of Cambridge Climate Change Preparedness and Resiliency (CCPR) Plan, the Washington DC Climate Change Adaptation Plan and the Statewide Resilience Master Plan for the Division of Capital Asset Management and Maintenance (DCAMM).

Kyle Vangel, HR&A

Kyle Vangel is a Director at HR&A Advisors. His work focuses on downtown revitalization, master planning, and economic development initiatives that enhance the urban built environment and competitiveness of cities and

regions. He is advising the real estate and economic development aspects of Envision Cambridge, and is also currently working to produce Imagine Boston 2030, the City of Boston's first comprehensive plan in over 50 years.

Tom Yardley, Nelson\Nygaard

Tom Yardley has 18 years' experience working with cities, towns, colleges, and medical campuses in the northeast and nationally, including the Longwood

Medical and Academic Area (LMA) of Boston, City of Somerville and communities in New York, Texas and Louisiana. He specializes in transportation demand management (TDM) and parking studies including innovative physical and programmatic solutions for daily commuting to areas

underserved by public transit.
